THINK TANK & INFLUENCE

BE ONE-THE POWER TO ACT

ENABLING SUSTAINABLE POLITICS

We like being thinkers, but we are thinkers with a purpose and that purpose is to show not only that there is a pathway to sustainable development but that no other outcome is acceptable. A think tank cannot afford simply to direct its products at a vague community of mildly-interested people. All of our products must have a target and reaching that target must result in positive change.

They must remind the policy community to focus on the long-term goal of sustainable development that we supposedly all share but that in reality we regularly betray. It is what our mission dictates. Our think-tank is independent and non-partisan. We facilitate a participatory visioning process through having formalized and institutionalized mechanisms for the different stakeholders to cooperate, co-decide, and co-create.

AN INNOVATIVE METHOD

We are using innovative tools, methods, and systems to solicit public feedback, offering French People more opportunities to participate in policy making while providing government with the benefits of their collective expertise and information. Openness strengthens our democracy and promotes honesty, efficiency, and effectiveness in government.

Our team of deep thinkers are creating Effective Ministerial Teams and we help make government more effective.

BE ONE CHANGE MAKING

We carry out research, look into the big governance challenges of the day and find ways to help government improve re-think and sometimes see things differently. We offer unique insights and advice from experienced people who know what it's like to be inside government and we provide inspirational learning and development for very senior policy makers.

We do this through seminars, workshops, talks or interesting connections that invigorate and provide fresh ideas.

We discuss the challenges of making government work, and where they can seek and exchange practical insights from the leading thinkers, practitioners, public servants, academics and opinion formers.

PRACTICAL RECOMMENDATIONS

Our aim is to challenge conventional thinking and generate debate where appropriate. Our think tank disseminates its findings and practical recommendations through a wide range of workshops and seminars.

As well as improving institutions and processes we run personalised learning and development programmes for special advisers, new MPs and shadow cabinet members. The programmes include group sessions, expert seminars and individual mentoring.

We facilitate a participatory visioning process through having formalized and institutionalized mechanisms for the different stakeholders to cooperate, co-decide, and co-create.

GLOBAL CITIZENSHIP & SUSTAINABLE COMMUNITIES

PHILANTHROPIC INNOVATION

Our commitment is to do what we can do, help our clients to do what they can do, and support a global cause that can inspire us all to do even more.

The company's most important global philanthropic initiative is our Intercultural Festival « La nuit des arts et des mondes». **The mission of our Intercultural Festival “La nuit des arts et des mondes”** is to promote inclusion and to enhance the cultural heritage by highlighting the people and cultures that make up our community. **We respect and promote the UNESCO diversity Chart and values.**

We celebrate all cultures’ uniqueness and value, in order to promote greater personal understanding across ethnic and racial lines. The festival offers an assortment of entertaining activities to the public for people of all ages, and from all walks of life.

Our **Intercultural Festival is a completely non-profit organization** event dedicated **to celebrating the diversity** and includes unique performances, authentic food, games, children’s activities, carnival rides, an art exhibition, cultural displays and much more.

We host this event each year as a way to recognize the ways in which **we are all diverse**. Intercultural Festival recognizes that culture represents a spectrum of traits in people that are not only confined to ethnicity.

This festival is a way to **recognize how we all belong to a culture** and that we should celebrate it. We want our guests to enjoy art, good food, music, dance, displays, talks and most of all, we want them to walk away having learned something new about a culture different from their own experiences.
